Cathy, (Reserved)

Gosh, theres so much to say. we've known each other so long, we've practically grown up together haven't we? Remember when we were little and we would ride horses together, I would spend the night with you and we would go to horse shows and freeze. Then somehow in a real short time we grew up, But were still best friends. Remember the time we went to the HQ and you backed into that guy. That really scared me! And the time I had my wreck, and when my house caught on fire. I remember when we all use to go to Terrys a lot. we haven't done it in a long time. Remember when we would all go to a horse show and get boy-friends, we'd usually find the ones we didn't want. I remember when me + Dennis use to go together, like when ~~we~~ me + you + Jan went to our horse show and found that guy Boyz! I don't re how I could have wanted to be with him while going with someone else. I guess I didn't like Dennis that much then. I guess both of us have had our share of lovers this year. Its funny how you seem to think I had more you know. each one but the next one is a little better than the last. I'm glad I can say I'm over Dennis, I hope I really am. I remember Siby. You were crazy about him like I was Dennis. Its funny how its always floated back and fourth between me + Jan + you, maybe she's just gone for a little while, I think she'll be back. Well I'm running out of room so I'll start on the next page.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America.

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them to absolute Tyranny, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies, and such is now the necessity which constrains them to alter their former System of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his assent to Laws the most wholesome and necessary for the public good. — He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended on their operation till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them. — He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right unalienable to them and formidably to grant only. — He has called together legislative Bodies at places unusual, uncomfortable and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. — He has dissolved Representative Houses repeatedly for expressing with mildness his opinions on the rights of the people. — He has refused for a long time after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within. — He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners, refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands. — He has obstructed the Administration of Justice by refusing his assent to Laws for establishing Judiciary Powers. — He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries. — He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance. — He has kept among us in times of peace, Standing Armies without the consent of our Legislature. — He has affected to render the Military independent of and superior to the Civil power. — He has combined with others to subject us to a jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his assent to their Acts of pretended Legislation. — For quartering large bodies of armed troops among us. — For protecting them by a mock trial from punishment for any Murders which they should commit on the Inhabitants of these States. — For cutting off our Trade with all parts of the world. — For imposing Taxes on us without our consent. — For depriving us in many cases of the benefits of Trial by jury. — For transporting us beyond Seas to be tried for pretended offences. — For abolishing the free System of English Laws in a neighbouring Province, establishing therein an arbitrary government, and enlarging its borders so as to enclose us at once in an empire and fit instrument for introducing the same absolute rule into these Colonies. — For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments. — For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever. — He has abdicated Government here by declaring us out of the Relation and waging War against us. — He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people. — He is at this time transporting large Armies of foreign Mercenaries to augment the wretched crews of the wretched British and Hessian regulars, with circumstances of cruelty, opprobrium, parallelled in the most barbarous ages and totally unworthy the Head of a civilized Nation. — He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, to supply themselves by their Hands. — He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions we have petitioned for Redress in the most humble terms: Our repeated Petitions have been answered by repeated injury. A Prince whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have we been wanting in attention to our British Brethren. We have warned them from time to time of attempts by their Legislatures to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of tranquillity. We must therefore acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be, Free and Independent States; that they are absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

I don't want this to turn into a letter, I
just want to review all the things we've done,
I don't guess I ought to review some of the things
we've gotten into. I remember last summer when
I fell off my horse over the close to yacks.
That really hurt. Even though I wasn't there when
you knocked your teeth out, I know how you felt.
I'll never forget when we went to Mont. When
we met tree. I tell ya Friday night was awful,
it's funny now but I thought your mother was
gonna kill us. I still don't know how you & Jan
got separated, I don't believe we got out that alive.
I tell ya we've had some weird experiences haven't we?
I remember last summer when you started beating Wanny
and I started dating Roger, we had a lot of beer, we
would have had more if I hadn't been so dumb.
Well I don't guess there's anything else that I
can put in here so I guess I better close this
You've been a great friend this past year and
I'm sure we'll always be great best friends, when
you try to explain the word "friend" all I have to
say is "Cathy" cause you've been more than a friend,
you've been a sister. I can tell anything to you &
I guess she told you everything. Just stay as
pretty and good natured as you are and you'll
always be liked by every body. Lots of luck
in the future and I hope God will give you every-
thing you want.

Love ya
Cinger

*Life,
so they say,
is but a game*

*and they let it
slip away*

*Love, like the autumn sun,
should be dying;*

but it's only just begun.

*Like the twilight in the
road up ahead,*

*They don't
see just
where we're
going.*

*All the secrets in the
universe whisper in our
ears; all the years*

mark

coming on ———
take us up,
always up.

*Dreams, so they say,
are for the fools*

*and they let them drift
away*

*Peace like the silent
dove, should be
flying,*

*but it's only
just begun.*

Like Columbus in the olden days

we must gather all our courage,

sail our ships out on the open sea ——

*Cast away our fears
All the years coming on.
Take us up,
Always up.*

For we may never

pass this way again.

I expect to pass through this world but once. Any good, therefore, that I can do or any kindness I can show to my fellow human being let me do it now. Let me not defer or neglect it, for I shall not pass this way again.

Cathy,

I don't even know where to start we have gotten into so much. I guess I'll just start at the beginning. I don't guess if it hadn't been for David we would have gotten as close as we are now. Remember we really met at the Guntersville football game when me and David sat with you and Danny Horton (I think that's his name). I guess after the game we just started talking to each other in school. I'll never forget when me and David broke up & thought I would never like anybody else and now I'm flipped out over Ronnie. I wish these annuals had lines on the pages!! I have to admit me and you have been through our share of boyfriends this year. One of the guys you liked I wish I could just forget about. One of mine I wish I could do the same I don't know how I could have thought I cared anything about Steve. All this is over now and I hope we can be happy with what we got. I am with Ronnie, and if you try you and "CS" will make it I'm sure. I don't "have" Ronnie but I am gonna to try my best and I hope you'll help me. Remember all the fun we had in "my truck." I don't know how we have kept from getting in trouble with all the things we're doing. I think we have had more good times than bad. You were really the one that got me to talking on the CB, going to Jocks, and now to the bowling alley. I hope we can be friends for many years to come. I want to go to one horse show and see what it's like and see all the cute guys that Jan, Ginger, and you are always talking about. Remember going in late to Mr. Warren's room and always getting upset, especially when we had to sit on the front. Don't forget "code 2" there sure is a lot of them running around. I'll never forget "getting married" in Sociology, I kinda like my husband, and we still haven't told Ronnie yet. I'm sure you'll never forget our gym class and me always getting my panties in a wad — as you call it. If some people just weren't so dumb they wouldn't have gotten that way half as many times as they did. When our softball games start I'm sure we're going to have a lot of good times cause they'll probably be a lot of "code 2's" at the ballfield, if you live to see our games get started — you're gonna have to watch home plate. Well, I'm running out of room but I could just keep on writing because I can think of so many good times

to a real sweet
girl that I have
known for a long
time. and my wife in
sociology class.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America.

When on the basis of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. — That whenever any form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such Principles, and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence indeed will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies, and such is now the necessity which constrains them to alter their former system of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this let facts be submitted to a candid world.

He has refused his Assent to Laws the most wholesome and necessary for the public good. — He has forbidden his Governors to pass Laws of immediate and pressing importance, unless approved on their Oath, till his Assent should be obtained, and when so refused, he has utterly neglected to attend to them. — He has refused to pass other Laws for the accommodation of large districts of People, unless those People would relinquish the right of Representation in the Legislature, a right inalienable to them and formidably to grant only. — He has called together legislative Bodies at places unusual, uncomfortable and distant from the depository of their public Business, for the sole purpose of fatiguing them into compliance with his measures. — He has dissolved Representative Houses repeatedly for expressing in the most humble manner his assents on the rights of the People. — He has refused for a long time after such Dissolutions, to cause others to be elected, whereby the legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise, the State remaining in the mean time exposed to all the dangers of Invasion from without and convulsions within. — He has endeavoured to prevent the Population of these States, for that purpose obstructing the Laws for Naturalization of Foreigners, refusing to accept others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands. — He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers. — He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries. — He has erected a multitude of New Offices, and sent hither Swarms of Officers to harass our People, and eat out their substance. — He has kept among us in times of Peace, Standing Armies, without the Consent of our Legislature. — He has endeavored to render the Military dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries. — He has erected a multitude of New Offices, and sent hither Swarms of Officers to harass our People, and eat out their substance. — He has kept among us in times of Peace, Standing Armies, without the Consent of our Legislature. — He has endeavored to render the Military dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has affected to make the Military independent of and superior to the Civil Power. — He has combined with others to subject us to a jurisdiction foreign to our Constitution, and unacknowledged by our Laws, giving his Assent to their Acts of pretended Legislation. — For quartering large Bodies of armed troops among us. — For protecting them by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States. — For cutting off our Trade with all parts of the world. — For imposing Taxes on us without our Consent. — For depriving us in many ways of the benefits of Trade by Jany. — For transporting us beyond Seas to be tried for pretended Offences. — For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to make it at once an example and fit instrument for introducing the same absolute rule into these Colonies. — For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments. — For suspending our own Legislatures and declaring themselves invested with power to legislate for us in all cases whatsoever. — He has abdicated Government here by declaring us out of his Protection and waging War against us. — He has plundered our seas, ravaged our Coasts, burnt our Towns and destroyed the lives of our People. — He is at this time transporting large Armies of foreign Mercenaries to crush the weak of death, desolation and tyranny, already begun with circumstances of Cruelty & Opprobrium, fully paralleled in the most barbarous ages, and totally unworthy the Head of a civilized Nation. — He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the execrable murderers of their Brethren, or to fall themselves by their Hands. — He has excited domestic Informations amongst us and has endeavored to bring on the Inhabitants of one Province the merciless Indian Savages, whose known rule of warfare is an undistinguished Destruction of all age, sex and conditions. — In every stage of these Oppressions We have Petitioned for Redress in the most humble terms. Our repeated Petitions have been answered by repeated injury. — We have shown a Character which is true marked by every act which may define a Tyrant, it is ours to tell the ruler of his People. — Nor have We been wanting in attention to our British Brethren. We have warned them from time to time of attempts by their Legislature to subvert an unalienable Jurisdiction over us. We have reminded them of the circumstances of our Emigration and settlement here. We have appealed to their native Justice and Magnanimity, and we have conferred them to the ties of our common Kindred to disavow those Informations which would inevitably interrupt our Commerce and Correspondence. They too have been deaf to the voice of Justice and of Reason. We must therefore acquiesce in the necessity, which denounces our Separation, and hold them as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be, Free and Independent States, that they are Absolved from all Allegiance to the British Crown, and that all political Connection between them and the State of Great Britain is and ought to be totally dissolved, and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. — And for the support of this Declaration, with a firm reliance on the Protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.
